## EDUCATION

---

### Harbour Space

Master in Front End Development

*September 2022 – September 2023*

Barcelona, Spain

### Universidad Complutense de Madrid

Bachelor of Science in Computer Science

*September 2016 – July 2020*

Madrid, Spain

## WORK EXPERIENCE

---

### Software Engineer

TÜV Rheinland

*September 2023 - Present*

Java, Spring, SQL, vaadin

- Managing dependencies and updates to ensure application security and functionality, while minimizing disruption to existing services.

### Full Stack Developer

Spanish Engineers

*May 2022 – November 2022*

Java, Spring, SQL, Angular

- Documented the local environment configuration process for front-end and full stack development
- Implemented new features on a web application featuring dashboards to visualize data metrics across different periods of time
- Supported the creation of a proof of concept for the app's migration from AngularJS to Angular 14

### Consultant Developer

Guidewire Software

*May 2021 – March 2022*

Gosu, Policy Center, REST & SOAP Web Services

- Displayed acquired knowledge throughout onboarding and training, and effectively utilized constructive criticism and feedback
- Attained PolicyCenter and Integration certifications for InsuranceSuite applications, leveraging Java as the main programming language
- Participated in the upgrade process of a PolicyCenter application
- Conducted demonstrations of the upgrade's incremental deliverables, ensuring with the client that all of the older use cases were covered in the new PolicyCenter version

### Software Development Engineer

Solera

*November 2020 – March 2021*

Java, Spring, SQL, vaadin

- Delivered new features on a web application dedicated to automobiles' life cycle. Implementations spanned the full stack, with micro-services on the server side and vaadin on the front end.
- Actively participated in scrum ceremonies, acquiring a decent notion of what agile entails.
- Took part in code reviews, configuration of CI/CD pipelines with Jenkins, and unit testing with TDD.

### Full Stack Developer

itestra GmbH

*February 2019 – April 2019 & July 2019 – November 2019*

Java, Spring, SQL, Angular

- Collected foundation level skills in HTML, CSS, and TypeScript with Angular 9
- Realized the importance of honest communication when collaborating on shared code bases
- Learned communication lessons by speaking my mind and by muting it, making mistakes and providing my point of views genuinely and concisely
